

BUSINESS ANALYSIS REPORT

Comprehensive Telecommunications Metrics Analysis

Date: June 22, 2025

Analysis based on multi-operator data
and market segments

STRATEGIC OVERVIEW

KEY FINDINGS:

□ ARPU & PROFITABILITY:

- POSTPAID generates highest ARPU (59.36), *followed by PREPAID* (58.65)
- TIGO leads in average ARPU (\$60.14) among operators
- Colombia represents 67% of total revenue

□ CUSTOMER SEGMENTATION:

- 4,732 total customers distributed evenly across operators
- 49% of customers have POOR credit score (<580)
- Only 32.6% of customers are ACTIVE, 33.6% suspended

□ GEOGRAPHIC DISTRIBUTION:

- Colombia dominates with Bogotá (742 customers) and Medellín (711 customers)
- Peru and Argentina show growth potential
- Mexico and Chile represent emerging markets

□ SERVICES & ADOPTION:

- INTERNATIONAL (49.7%) and VOICE (49.1%) are most popular services
- 4-service combinations generate higher ARPU (\$56-60)
- Opportunity in DATA and SMS services

□ TRENDS:

- Stable acquisition until 2025, with decline thereafter
- WOM shows irregular acquisition peaks
- Need for retention and reactivation strategies

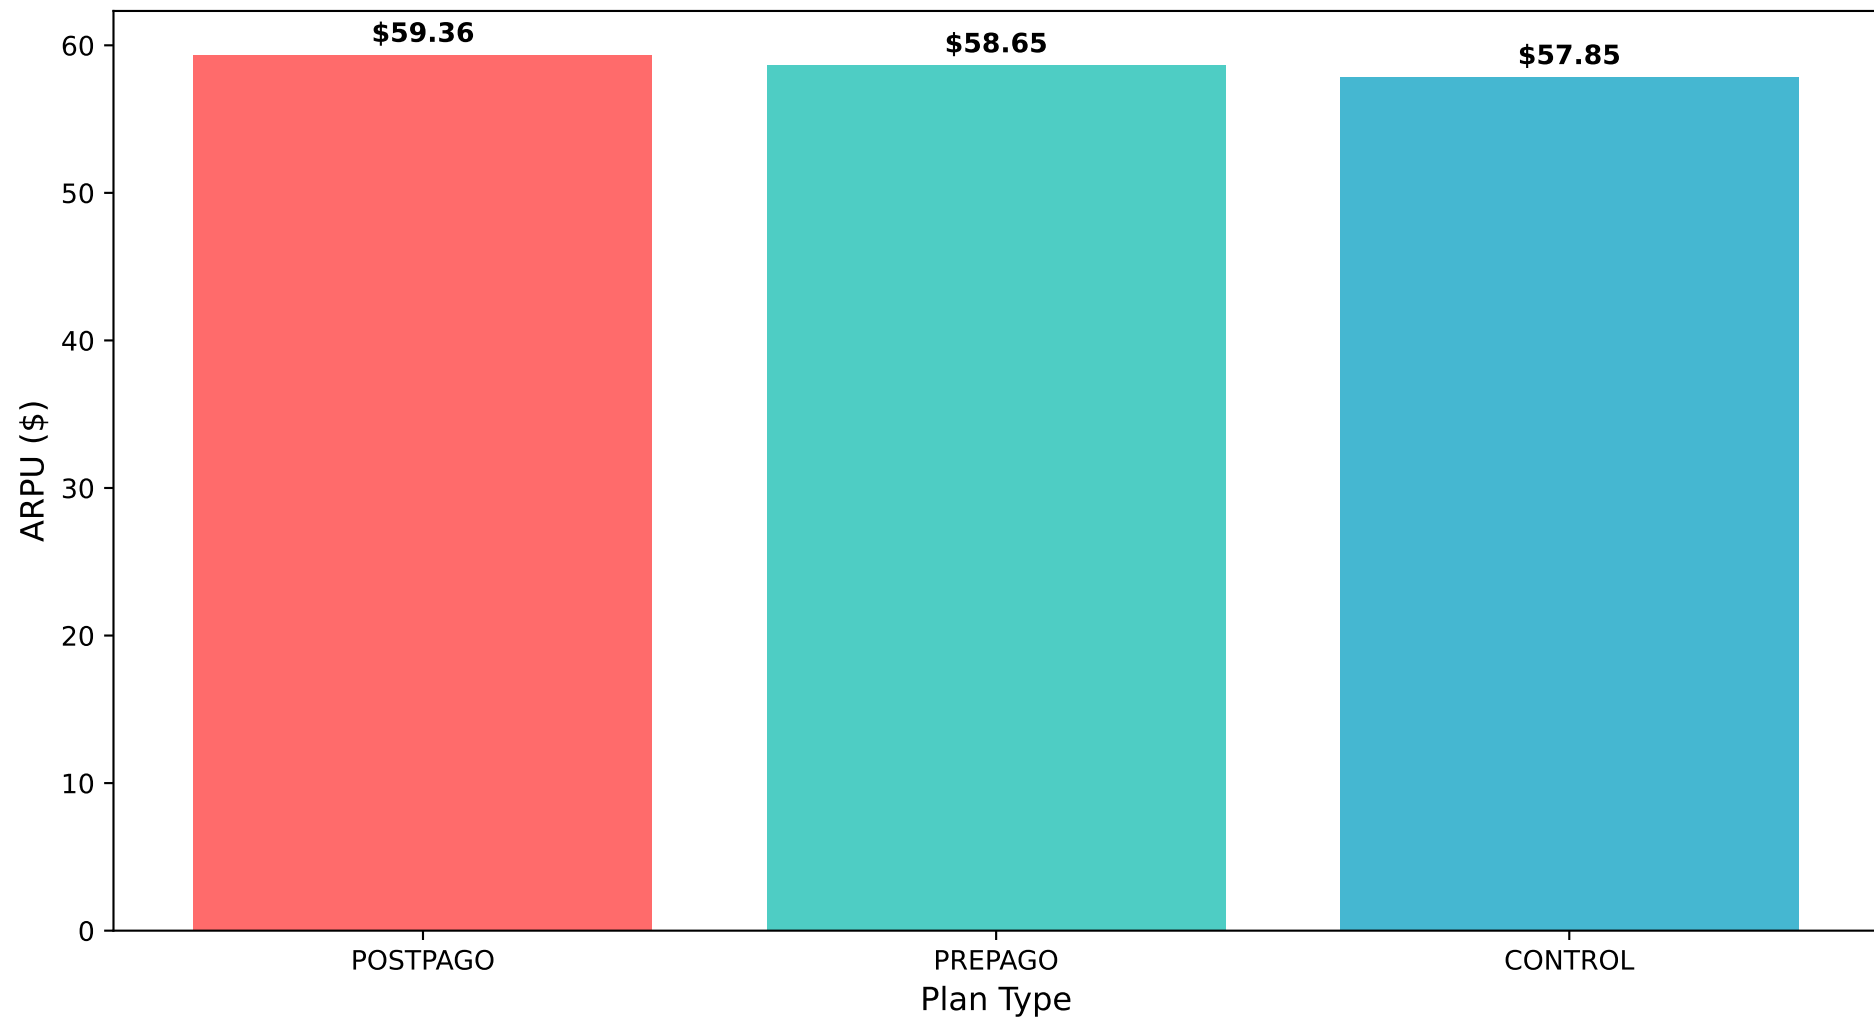

⚠ ATTENTION AREAS:

- High percentage of suspended/inactive customers
- Uniform payment behavior regardless of credit score
- Cross-selling opportunities in underutilized services
